About The Game Our story is "If you think, Princess is yourself, then you're wrong" "Princess and the swordman". In the game, the player takes the role of a man named "Kikoku" who was saved by a princess. One day, a monster appeared and attacked her. The swordman who was "naturally" nearby, protected her. The swordman was saved after the battle. Kikoku who lived happily with a princess until he met the swordman who saved the princess was able to live like that. But, as time passed, he realized that he lived differently from the typical princess. The relationship between the two became different from how it was first. Frog Town Games wrote "Kikoku" The characters and world design was done by "BUNKO TANAKA" Making the illustrations and the game is done by "ASAMI MICHIYAMA" Music was done by "SHUNGO SATEHARA" Titles were written by "Frog Town Games" The game was made using "The Second Life engine" (Edited by Frog Town Games) Welcome to the town of "Shiroiheta" A town where a swordman exists in the world to protect the princesses... A story about happiness and sadness that lasts forever There is no way to go back Welcome to a story where a princess save a man by using the "magic sword" Thinking, I am myself, and carrying the "sad feelings" I'm the princess I want to protect the princesses I'm selfish to a certain degree. I'm a spoiled princess to be compared with, but the salvation of the swordman is more important than the sword's powers. I can learn a lot from

I gave up trying to put videos on here or even to buy the videos from UDEMY. It all takes too much time to edit and upload and I don't even know if it makes sense.

That said, here's a video...

All links are "Free"! Most of them anyway. So make sure you tip the creators if you find the game there.

I would give them better directions, but like I said... less and less time

Step by Step:

Download the game from the IDM link above.

After downloading, play it...

If you see a window come up titled "CD Projekt" - Click the "x" at the top right of the screen.

Wait for the game to pop back up.

Move to your Steam Client folder (Where your Steam is). If you don't know where that is, Press "Command "&#145;T"&#145;

In the folder you used to navigate to, locate D
